4A

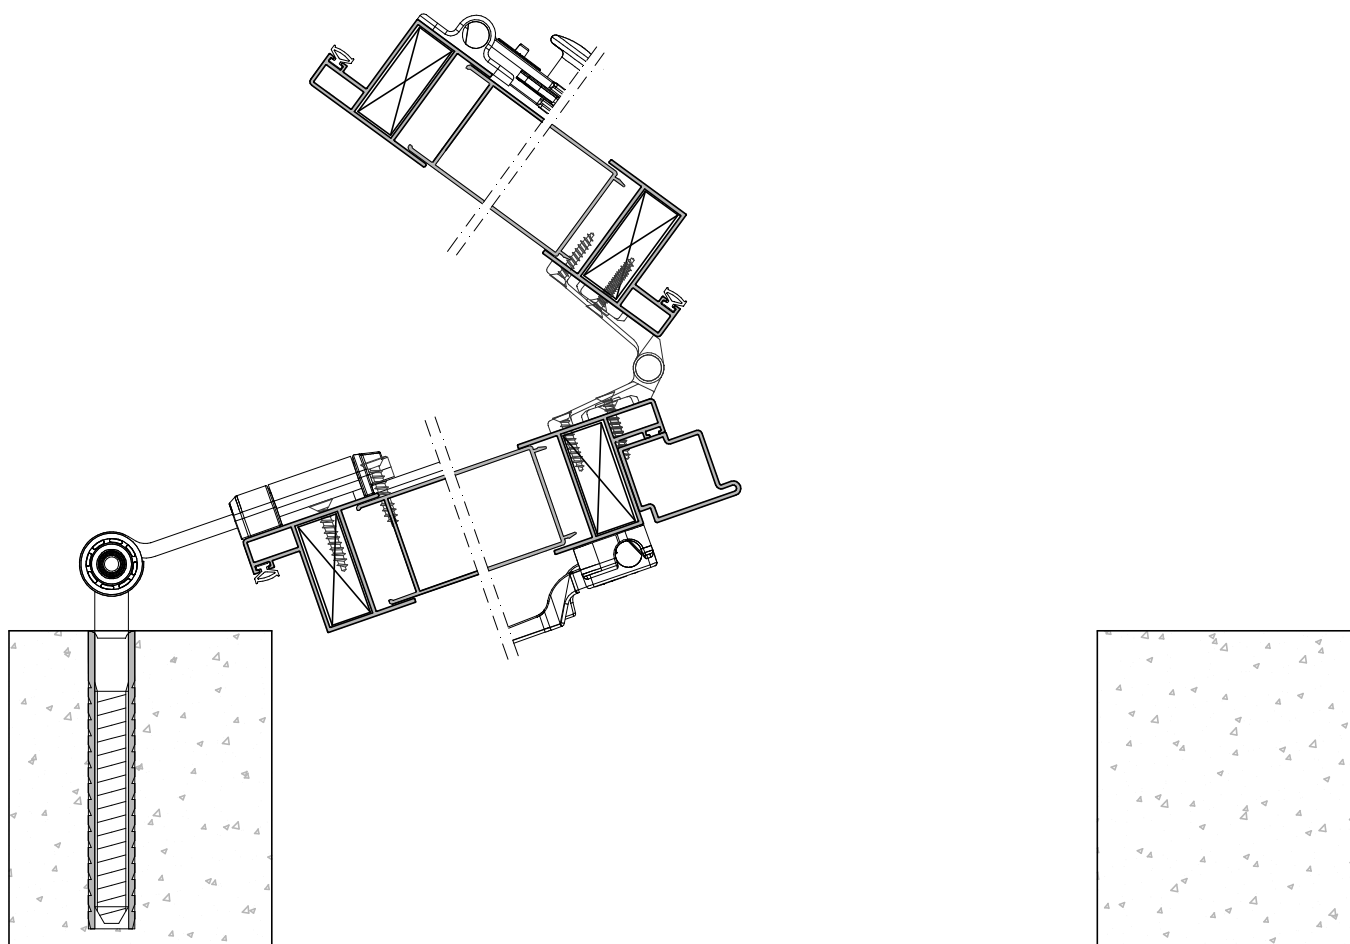

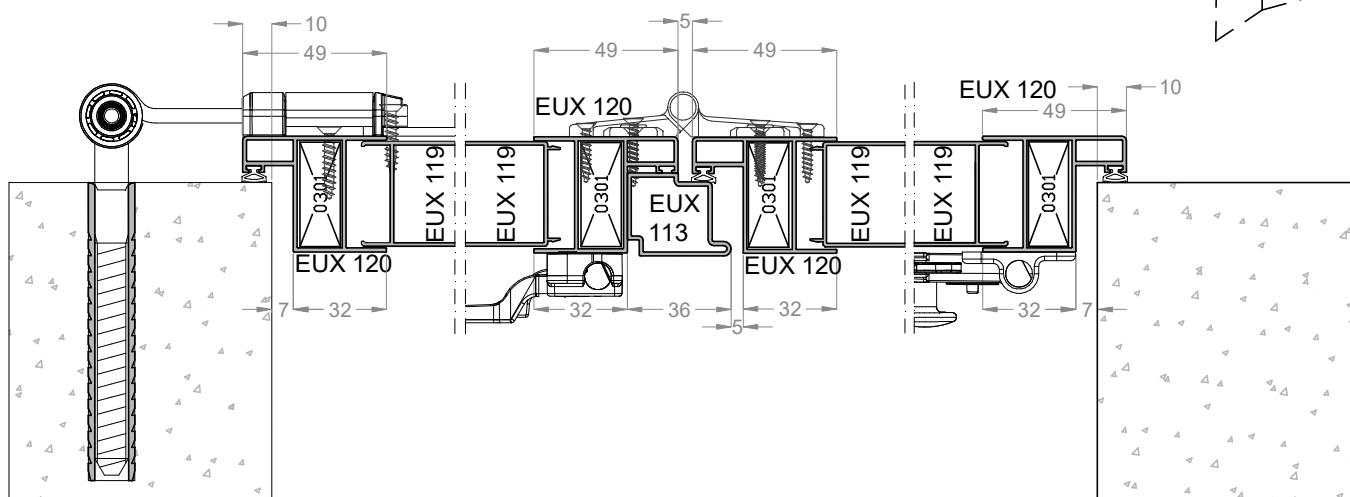

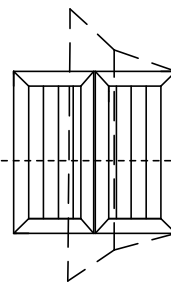

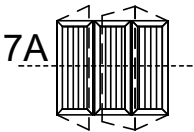

A diagram of a rectangular prism. A horizontal dashed line passes through the center of the prism. Above the prism, there are two arrows pointing outwards from the center, one to the left and one to the right. Below the prism, there are two arrows pointing inwards towards the center, one from the left and one from the right.

A technical drawing of a rectangular box, likely a component of a mechanical assembly. The box is shown in a perspective view, with its front face and top surface visible. The front face is divided into two main sections by a vertical line, suggesting a central slot or a hinge. The top surface is also divided into two sections by a vertical line. Dimension lines are used to indicate the size of the box: a horizontal dimension line labeled 'A' spans the width of the front face, and a vertical dimension line labeled 'B' indicates the height of the box. The drawing is a black and white line drawing, typical of technical specifications.
